- React.js 

SUMMARY

A recent graduate with the education and hands-on experience in web development through a coding boot camp training, seeking a role of Junior Web Developer with highly poised and dedicated talent in design principles and programming languages. Excellent eye for visual aesthetics paired with insight into data and back-end functionality to help organizations meet strategic goals in building and developing full-stack web applications using the latest industry-adapted technologies and frameworks.

WORK EXPERIENCE

Boot Camper

Aug - Sept 2022

Zuitt - Coding Bootcamp

- Built a responsive portfolio using HTML5, CSS3, Bootstrap, and JavaScript.
- Used Git for coding, sharing, and making of remote repositories for the deployment of the responsive portfolio.
- Develop full stack e-commerce website using MERN (MongoDB, Express.js, React.js, and Node.js)
- Created a back-end API using MongoDB, Node.js, and Express.js
- Deployed applications using Heroku and Vercel

Branch Operations Assistant

Nov 2019 - Jun 2022

China Banking Corporation

- Processed checks for clearing, monitored and processed investments in peso as well as that in foreign currency.
- Checked reports of the previous day's transaction to ensure the correctness of posted documents.
- Documented accounting, deposits, and loan transactions of the branch.
- Ensured no abnormal balances on the books of the branch.
- Monitored expense ledgers to align established company policies.
